

Mohd Sohel Ansari

Frontend Developer / API Integration | Full Stack Developer

Mumbai, Maharashtra | Phone: +91 9136990064 | Email: sohelansari6421@gmail.com

GitHub: github.com/sohelansari6421-cmyk

PROFILE

Full Stack Developer and BCA student with hands-on experience building responsive web applications, REST APIs, authentication systems, dashboards, and database-driven applications. Comfortable working across frontend and backend development, API integration, responsive UI, debugging, and deployment.

TECHNICAL SKILLS

Frontend: React, JavaScript, HTML5, CSS3, Tailwind CSS, Vite, React Router, Axios, Lucide React

Backend: Next.js, Node.js, Express.js, Python, Django, Django REST Framework, REST APIs, JWT

Database: SQLite, PostgreSQL, SQL, better-sqlite3

Tools: Git, GitHub, npm, Postman, VS Code, Vercel, Render

PROJECTS

Learniee — Parent Learning Dashboard

Stack: React, Tailwind CSS, Axios | Next.js, REST APIs, JWT, SQLite

- Built a responsive parent dashboard for discovering and comparing learning courses.
- Implemented signup/login, JWT authentication, protected routes, persistent authentication, and logout.
- Developed course search, grade/subject filters, price range, teacher-rating filters, sorting, pagination, loading states, and no-results handling.
- Built REST API integration with a SQLite-backed backend and deployed the application using Render.

Working URL: <https://learniee-1.onrender.com>

Portfolio Website

Stack: React, JavaScript, Tailwind CSS, Vite | Python, Django, Django REST Framework

- Developed a responsive portfolio with About, Skills, Projects, Contact, and Resume sections.
- Built a Django backend and REST API for project and portfolio data.
- Integrated the React frontend with backend APIs using Axios and implemented responsive UI and resume download.

Working URL: <https://portfolio-git-main-sohelansari6421-cmyks-projects.vercel.app/>

AnimeVerse — Anime Discovery Website

Stack: React, Vite, Tailwind CSS, React Router, TanStack Query, Axios | Jikan REST API

- Built an anime discovery interface with reusable components, responsive navigation, anime sections, search/details pages, and routing.
- Used TanStack Query for server-state management and Axios for API communication.
- Integrated the Jikan REST API to fetch top anime and display structured anime data.

ADDITIONAL PROJECTS

Hotel Management System • Automatic Parking System • Electric Billing System • Anti-Sleeping Alarm for Car

EDUCATION

Qualification	Institute / School	Percentage	Duration / Year
Bachelor of Computer Applications (BCA) — Pursuing	Smt. K. G. Mittal Institute of Management, Information Technology and Research	—	July 2025 – April 2027
HSC	Kala Vidyalaya High School & Jr. College	63.83%	June 2024
SSC	Gurukul English High School	71.40%	March 2022

CORE STRENGTHS

Full-stack development • REST API integration • Authentication • Responsive UI • Database-driven applications • Debugging • Git/GitHub • Deployment
